

# Interior Designer.

Interior designers could go into a room and immediately inspired about improving it. Possible additional decorations; the materials for the curtains; what the lamps should be replaced with. They are the architect of spaces within a building, making sure that the activities undergone in them are appropriately, comfortably supported.

## Character: AE

**Artistic (Creator)** - occupations frequently involve working with forms, designs and patterns. They often require self-expression and the work can be done without following a clear set of rules.

**Enterprising (Persuader)** – occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.

### Expertise

- **Active Listening** - giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
- **Judgment and Decision Making** - considering the relative costs and benefits of potential actions to choose the most appropriate one.
- **Operations Analysis** – analyzing needs and product requirements to create a design.

### Day-to-Day Tasks

- Select or design, and purchase furnishings, art works, and accessories.
- Advise client on interior design factors such as space planning, layout and use of furnishings or equipment, and color coordination.
- Coordinate with other professionals, such as contractors, architects, engineers, and plumbers, to ensure job success.

### Work Setting

- E-mail is an integral part of the job.
- There are a lot of face-to-face discussions with individuals or teams.
- Phone calls are as important as face-to-face discussion.
- It requires working indoors in environmentally controlled conditions.

### Knowledge

- **Design** — Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.
- **Building and Construction** – knowledge of materials, methods, and the tools involved in the construction or repair of houses, buildings, or other structures such as highways and roads.
- **Customer and Personal Service** – knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.

### Education

Most interior designers are graduated with a major in interior design. Here are some schools that offer the program:

- Program Studi Sarjana Desain Interior, Fakultas Seni Rupa dan Desain (FSRD) Institut Teknologi Bandung, Indonesia
- Program Sarjana Arsitektur Interior, Fakultas Teknik (FT) Universitas Indonesia, Indonesia
